

Dedicated Transport – Non-impairment example (Self-provisioning trigger satisfied)

Alexander Direct (Transport)
Docket Nos. 95-04-043 & 95-04-044
Attachment SJA-12

*For illustration purposes only. Competing carrier (e.g., "CLEC") POPs may or may not be in physically separate locations. Some POPs are located in a common location such as a "collocation hotel" or carrier hotel."

Q8. What is dedicated transport?

A8. Dedicated transport facilities connect two points within a communications network, so that information can be transmitted between those two points. **"Dedicated" transport means all or part of the facility is dedicated to a particular carrier or use and that there is no switching interposed along the transport route.** (Direct Testimony of Scott J. Alexander On Behalf of SBC California Regarding Dedicated Transport, page 4)"
